

**Amendments to the Specification**

Please delete the paragraphs beginning on page 3, line 24 and ending on page 3, line 30 under the heading "BRIEF DESCRIPTION OF THE DRAWINGS".

Please delete the paragraph beginning on page 9, line 9 and ending on page 9, line 19.

Please replace the paragraph beginning on page 9, line 20 and ending on page 9, line 23 with the following:

Fiberglass insulation products manufactured in accordance with the present invention have better binder coverage and protection, less glass fiber damage, and provide better working environment and better product performance than do similar products made with previously known polyacrylic acid binder systems. Scanning Electron Microscope imaging disclosed in U.S. Patent Application No. 09/871,467, entitled "Surfactant-Containing Insulation Binder," filed on May 31, 2001, which is hereby incorporated by reference in its entirety and for all purposes, provides structural details that show that the present invention significantly improves binder atomization, binder distribution, and binder wetting.
